

# PROTECT Our Water, Our Environment, Our Jobs, **OUR DELTA**

Photos by Arturo Vera photography

Some politicians and bureaucrats are trying to bypass laws that protect Delta water quality, fish, wildlife, and local family farmers. They want to ship our water and our jobs down a **NEW PERIPHERAL CANAL** to southern Central Valley agribusiness.

This water grab would be the equivalent of draining Lake Shasta twice every year and would cost taxpayers between \$15 and \$24 billion.

Tell the politicians to **STOP THE DELTA WATER GRAB**
